

Free and Open to the Public

Home Health Innovations: Bridging Research and Practice

Thursday, May 15, 2014

9:00 am - 4 pm

(Registration & coffee from 8:30 am)

330 Student Union,

University at Buffalo,

North Campus

This research workshop brings together researchers, practitioners, and community advocates who want to impact public health via home health innovations. We will facilitate new partnerships to advance research and best practices in home health.

Breakout Group Sessions will focus on upcoming grant opportunities for workshop participants.

Register at ubhomebase.org/workshop
